

## 343 Prices and Eligibility

### Overview

- 1.0 Prices and Fees for Standard Mail
- 2.0 Content Standards for Standard Mail Flats
- 3.0 Basic Standards for Standard Mail Flats
- 4.0 Price Eligibility for Standard Mail
- 5.0 Additional Eligibility Standards for Nonautomation Standard Mail Flats
- 6.0 Additional Eligibility Standards for Enhanced Carrier Route Standard Mail Flats
- 7.0 Additional Eligibility Standards for Automation Standard Mail Flats

### 1.0 Prices and Fees for Standard Mail

#### 1.1 Price Application

Postage is based on the price that applies to the weight (postage) increment of each addressed piece.

#### 1.2 Standard Mail Price Application

Standard Mail prices are based on the weight of the pieces as follows:

- a. The appropriate minimum per piece price applies to any Standard Mail piece that weighs 3.3 ounces (0.2063 pound) or less.
- b. A price determined by adding the per piece charge and the corresponding per pound charge applies to any Standard Mail piece that weighs more than 3.3 ounces.

#### 1.3 Regular and Nonprofit Standard Mail—Presorted, Enhanced Carrier Route, and Automation Prices

For prices, see [Notice 123—Price List](#).

#### 1.4 Fees

##### 1.4.1 Presort Mailing Fee

A mailing fee must be paid each 12-month period for each permit used to mail Standard Mail and/or Parcel Select Lightweight pieces, except for qualifying full-service automation mailings under [3.4](#) and [705.23.0](#) (see [Notice 123—Price List](#)).

##### 1.4.2 Weighted Fee

For return of pieces bearing the ancillary service markings “Address Service Requested” and “Forwarding Service Requested.” Weighted fee equals single-piece First-Class Mail or Priority Mail price multiplied by 2.472. See [Notice 123—Price List](#).

#### 1.5 Computing Postage — Standard Mail

##### 1.5.1 Weight

To compute the total weight of the addressed pieces in a mailing or mailing segment for:

### 343.1.5.2

- a. Identical-weight pieces, multiply the computed average weight of a single piece by the corresponding number of pieces; do not round the product.
- b. Nonidentical-weight pieces, add the actual weight of the individual pieces or weigh the entire mailing in bulk; do not round either result.

#### **1.5.2 Determining Single-Piece Weight**

To determine single-piece weight in a mailing of identical-weight pieces, weigh a sample group of at least 10 randomly selected pieces and divide the total sample weight by the number of pieces in the sample. To determine single-piece weight in a mailing of nonidentical-weight pieces, weigh each piece individually. Express all single-piece weights in decimal pounds, rounded off to four decimal places.

#### **1.5.3 Net Postage**

Postage is computed at the applicable prices on the entire mailing to be mailed at one time. The net postage price is either the applicable minimum per piece price or the piece/pound price, as adjusted for any discounts and surcharges.

#### **1.5.4 Per Piece and Per Pound Charges**

The per piece charge is computed based on the total number of addressed pieces for each price category claimed. The minimum price may apply to each piece as detailed in 1.2. Otherwise, the per piece charge must be added to the per pound charge to determine total postage. Where applicable, the per pound charge is computed based on the total weight of the addressed pieces for each price category claimed, and is added to the per piece charge to determine total postage. For example, a quantity of pieces weighing 100.25 pounds is charged 100.25 times the applicable price per pound, based on the price claimed, plus one unit of the applicable per piece charge for each addressed piece.

#### **1.5.5 Computing Affixed Postage**

To compute postage to be affixed to each piece, multiply the weight of the piece (in pounds) by the applicable price per pound; add the applicable per piece charge and any surcharge; and round the sum up to the next tenth of a cent. The applicable minimum per piece charge must be affixed if it is more than the total computed per piece postage.

#### **1.5.6 Permit Imprint**

In any permit imprint mailing:

- a. For each price or price category, multiply the number of addressed pieces by the corresponding price per piece and (if applicable) multiply the *unrounded* total weight of the pieces by the corresponding price per pound; round off each product to four decimal places.
- b. Add the per piece and per pound charges and round off the total postage to the nearest whole cent.

## 2.0 Content Standards for Standard Mail Flats

### 2.1 Definition and Weight

Standard Mail consists of mailable matter that is neither mailed or required to be mailed as First-Class Mail nor entered as Periodicals (unless permitted or required by standard) and that weighs less than 16 ounces.

### 2.2 Personal Information

Personal information may not be included in a Standard Mail mailpiece unless all of the following conditions are met:

- a. The mailpiece contains explicit advertising for a product or service for sale or lease or an explicit solicitation for a donation.
- b. All of the personal information is directly related to the advertising or solicitation.
- c. The exclusive reason for inclusion of all of the personal information is to support the advertising or solicitation in the mailpiece.

### 2.3 Bills and Statements of Account

Mail containing bills or statements of account as defined in [333.2.2](#) may not be entered as Standard Mail except under the conditions described in [2.5.2](#).

### 2.4 Handwritten and Typewritten Matter

Mail containing handwritten or typewritten matter may not be entered as Standard Mail except under the conditions described in [2.6](#).

### 2.5 Attachments and Enclosures

#### 2.5.1 Invoice

An invoice, whether it also serves as a bill, may be placed either inside a Standard Mail piece or in an envelope marked "Invoice Enclosed" and attached to the outside of the piece if the invoice relates solely to the matter with which it is mailed. The invoice may show this information:

- a. Names and addresses of the sender and addressee.
- b. Names and quantities of the articles enclosed, descriptions of each (e.g., price, tax, style, stock number, size, and quality, and, if defective, nature of defects).
- c. Order or file number, date of order, date and manner of shipment, shipping weight, postage paid, and initials or name of packer or checker.

#### 2.5.2 Incidental First-Class Mail Attachments and Enclosures

Incidental First-Class Mail matter may be enclosed in or attached to Standard Mail merchandise (including books but excluding merchandise samples) without payment of First-Class Mail postage. Incidental First-Class Mail matter may not be enclosed in or attached to matter mailed as Customized MarketMail under [705.1.0](#). An incidental First-Class Mail attachment or enclosure must be matter that, if mailed separately, would require First-Class Mail postage, is closely associated with but secondary to the host piece, and is prepared not to encumber postal processing. An incidental First-Class Mail attachment or enclosure may be a bill for the product or publication, a statement of account for past products or publications, or a personal message or greeting included with a product, publication, or parcel.

Postage at the Standard Mail or Package Services price for the host piece is based on the combined weight of the host piece and the incidental First-Class Mail attachment or enclosure.

#### **2.5.3 Nonincidental First-Class Mail Enclosures**

Letters or other pieces of nonincidental First-Class Mail, subject to postage at First-Class Mail prices, may be enclosed with Standard Mail pieces (except matter mailed as Customized MarketMail under [705.1.0](#)). Postage for the First-Class Mail enclosure must be placed on the outside of the piece. It may be affixed separately or added to the postage for the host piece. The endorsement "First-Class Mail Enclosed" must be placed on the piece, below the postage and above the address.

#### **2.5.4 Nonincidental First-Class Mail Attachments**

Letters or other pieces of nonincidental First-Class Mail may be placed in an envelope and securely attached to the address side of a Standard Mail piece (except matter mailed as Customized MarketMail under [705.1.0](#)), or of the principal piece, as applicable. Combination envelopes or containers with separate parts for the two classes of mail may be used. The names and addresses of the sender and addressee must be placed on both the principal piece and the attachment. Alternatively, the sender's name and address must be placed on one part and the addressee's name and address on the other. If the piece is a combination container with inseparable parts or compartments, the names and addresses may appear on only one part. The applicable Standard Mail postage for the Standard Mail matter must be prepaid and placed in the upper right corner of the address space. Postage at the applicable First-Class Mail price must be paid for and affixed to the First-Class Mail attachment, unless other payment methods are permitted by standard.

#### **2.5.5 Attachment of Other Standard Mail Matter**

A Standard Mail flat may bear a label, a sticker, or a release card eligible as Standard Mail matter, when affixed under [2.5.5](#) and [2.5.6](#). Standard Mail flats may bear repositionable notes under [705.22.0](#). Standard Mail flats also may bear other attachments eligible as Standard Mail matter if these additional conditions are met:

- a. The piece bearing the attachment is claimed as Customized MarketMail (CMM) under [705.1.0](#) or as Enhanced Carrier Route Standard Mail flats under [6.0](#), except as allowed under [2.5.6](#).
- b. The face of the attachment may bear only the price markings and endorsements permitted for the price claimed for the host piece.
- c. At the time of mailing, the piece shows only one complete delivery address. If the attachment is a reply card, the address for returning the piece is not visible.
- d. Enhanced Carrier Route host pieces are larger than 6 by 11 inches. CMM host pieces are any size permitted under [705.1.1.3](#).
- e. The attachment is not larger than the host piece and does not extend beyond the host piece. An attachment affixed to a CMM piece may not be greater than 1/4 inch thick at its thickest point.

- f. Each piece in the mailing bears the attachment, and the attachment is of identical size, weight, and positioning on the host piece. Different wording or designs may be used.
- g. The attachment does not interfere with processing or delivery. Folded or multipage attachments must be secured to prevent opening during handling.
- h. Standard Mail flats with attachments that have been approved in writing by the Pricing and Classification Service Center are eligible for mailing under the conditions specified in the approval letter.

#### **2.5.6 Flat-Size Pieces with Labels, Stickers or Release Cards**

Flats with an attached label, sticker, or release card eligible as Standard Mail matter must meet the standards in [301.1.8.4](#).

### **2.6 Written Additions**

Markings that have the character of personal correspondence require, with certain exceptions, additional postage at the First-Class Mail prices. The following written additions and enclosures do not require additional First-Class Mail postage:

- a. The sender's and the addressee's names, occupations, and addresses, preceded by "From" or "To," and directions for handling.
- b. Marks, numbers, names, or letters describing the contents.
- c. Words or phrases such as "Do Not Open Until Christmas" and "Happy Birthday, Mother."
- d. Instructions and directions for the use of the item mailed.
- e. A manuscript dedication or inscription not having the nature of personal correspondence.
- f. Marks to call attention to words or passages in the text.
- g. Corrections of typographical errors in printed matter.
- h. Manuscripts accompanying related proof sheets and corrections of proof sheets including corrections of typographical and other errors, changes in the text, insertions of new text, marginal instructions to the printer, and corrective rewrites of parts.
- i. Handstamped imprints, unless the added material is in itself personal or converts the original matter to a personal communication.
- j. Matter mailable separately as Standard Mail printed on the wrapper, envelope, tag, or label.

## **3.0 Basic Standards for Standard Mail Flats**

### **3.1 Description of Service**

#### **3.1.1 Service Objectives**

Standard Mail may receive deferred handling. Service objectives for delivery are 2 to 9 days; however, delivery time is not guaranteed.

#### **3.1.2 Minimum Quantity**

Standard Mail provides economical prices for mailings of 200 or more pieces or 50 or more pounds of mail.

### **3.2 Defining Characteristics**

#### **3.2.1 Weight, Shape, Flexibility, and Uniform Thickness**

All Standard Mail pieces must weigh less than 16 ounces. Flat-size pieces that do not meet the standards in [301.1.3](#) through [301.1.4](#) must be prepared as parcels and pay parcel prices.

#### **3.2.2 Preparation Requirements**

Standard Mail is subject to specific volume, marking, and preparation requirements.

#### **3.2.3 Inspection of Contents**

Standard Mail is not sealed against postal inspection.

#### **3.2.4 Forwarding Service**

The price of Standard Mail typically does not include forwarding service. Forwarding service is available under [507.1.5](#).

#### **3.2.5 Return Service**

The price of Standard Mail does not include return service. Return service is available under [507.1.5](#) for an additional fee.

#### **3.2.6 Extra Services**

[\[3-3-14\]](#) Extra services are available with Standard Mail as provided in [503.1.0](#).

#### **3.2.7 Periodicals**

Authorized Periodicals may not be entered as Standard Mail unless permitted by standard.

#### **3.2.8 Identical Pieces**

The contents of printed matter in a Standard Mail mailing must be identical to a piece sent to at least one other addressee. Standard Mail may include the addressee's name and address but may not transmit personal information except as permitted under [2.2](#).

### **3.3 Additional Basic Standards for Standard Mail**

Each Standard Mail mailing is subject to these general standards:

- a. All pieces in a mailing must be of the same processing category.
- b. Each mailing must contain at least 200 pieces or 50 pounds of pieces. See [3.6](#), for volume requirement eligibility unique to Presorted Standard price mailings. Other volume standards also can apply, based on the price claimed.
- c. All pieces in an automation mailing must be eligible for an automation price. Separate automation and Presorted price mailings of flats that are reported on the same postage statement must be cosacked under [705.9.0](#). Separate automation, Presorted, and Enhanced Carrier Route mailings of flats may be co-containerized under [705](#).
- d. All pieces in a mailing must be sorted together and marked under the standards for the price claimed.

- e. Each mailpiece must bear the addressee's name and delivery address, including the correct ZIP Code or ZIP+4 code, except as allowed when using alternative addressing formats under [602.3.0](#) or detached address labels under [602.4.0](#). Format and position the delivery address according to [302.2.0](#).
- f. Postage must be paid under [344.1.0](#) through [344.3.0](#) with precanceled stamps, meter stamps, or permit imprint.
- g. A postage statement, completed and signed by the mailer, using the correct USPS form or an approved facsimile, must be submitted with each mailing. In addition, mailings must be documented under [344.4.2](#) and the standards for the price claimed.
- h. Each piece must meet the standards for any other price or discount claimed.
- i. Any barcode on a mailpiece must be correct for the delivery address and meet the standards in [302.5.0](#), [708.3.0](#), and [708.4.0](#).
- j. Mailings must be deposited at a business mail entry unit of the Post Office where the postage permit or license is held and the annual mailing fee paid, unless deposit elsewhere is permitted by standard.

### 3.4 Presort Mailing Fees

An annual mailing fee must be paid once each 12-month period at each Post Office of mailing. Payment of this fee is waived for mailers who present only full-service automation mailings (under [705.23.0](#)) containing 90% or more pieces qualifying for full-service prices. A mailer paying this fee may enter clients' mail as well as the mailer's own. The mailer whose permit imprint appears on pieces in a mailing paid with a permit imprint must show that permit number on the postage statement and must pay the annual mailing fee for that permit; this fee is in addition to the one-time fee for an application to use permit imprints. The fee may be paid in advance only for the next 12 months and only during the last 60 days of the current service period. The fee charged is that which is in effect on the date of payment.

### 3.5 Merging Similar Standard Mailings

Mailings are subject to the general definitions and conditions in [345.1.0](#). Generally, mailers may merge similar Standard Mail matter into a single mailing. Differences in text, address labels, and address lists or list key numbers do not prohibit the mailer from merging and sorting pieces together. Pieces with different methods of postage payment may be combined in the same mailing only if authorized by Business Mailer Support (BMS). Pieces of nonidentical weight, if merged in the same mailing, must bear the correct postage when mailed, unless otherwise authorized by BMS.

### 3.6 Residual Volume Requirement

Pieces in an Enhanced Carrier Route price mailing that has separately met a 200-piece or 50-pound minimum quantity requirement may be counted toward the minimum quantity requirement for a Presorted price mailing, provided that the Enhanced Carrier Route price mailing and the Presorted price mailing are part of the same mailing job. Likewise, pieces in an automation price mailing that has separately met a 200-piece or 50-pound minimum quantity requirement may be counted toward the minimum quantity requirement for a Presorted price mailing, provided that the automation price mailing and the Presorted mailing are part of the

same mailing job. Pieces mailed at Presorted Standard Mail prices must not be counted toward the minimum volume requirements for an Enhanced Carrier Route price or an automation price mailing.

### **3.7 Residual Mail Subject to First-Class Mail or Priority Mail Prices**

Pieces prepared as Standard Mail (i.e., that bear Standard Mail price markings, ACS codes, etc.) that do not qualify for Enhanced Carrier Route, automation, or Presorted Standard Mail prices are subject to the single-piece First-Class Mail or Priority Mail prices as applicable for the weight of the mailpiece. Metered pieces weighing over 13 ounces but less than 16 ounces that do not qualify for Standard Mail prices and any pieces that do not qualify for Standard Mail prices for which First-Class Mail or Priority Mail service is desired must be re-enveloped or otherwise prepared so that they do not bear Standard Mail markings, endorsements, and ACS codes and must bear the proper First-Class Mail or Priority Mail price markings and ACS codes. Mailers who have pieces (other than metered pieces weighing over 13 ounces but less than 16 ounces) that do not qualify for Standard Mail prices but that are prepared as Standard Mail and who do not desire to receive First-Class Mail or Priority Mail service for those pieces may enter their mailpieces “as is” (i.e., bearing the Standard Mail markings and endorsements), provided the requirements in [344.1.0](#), are met.

### **3.8 ZIP Code Accuracy**

The ZIP Code accuracy standard is a means of ensuring that the 5-digit ZIP Code in the delivery address correctly matches the delivery address information. For the purposes of this standard, *address* means a specific address associated with a specific 5-digit ZIP Code. Each address in a mailing at Standard Mail flats prices must meet the ZIP Code accuracy requirements in [602.6.0](#).

### **3.9 Move Update Standard**

#### **3.9.1 Basic Standards**

The Move Update standard requires the periodic matching of a mailer's address records with customer-filed change-of-address orders maintained by the USPS. For this standard, *address* is a specific address associated with a specific occupant name. Each address in a mailing at Standard Mail flats prices must meet the requirements in [602.5.0](#).

#### **3.9.2 Basis for Move Update Assessment Charges**

Mailings are subject to a Move Update assessment charge if more than 30 percent of addresses with a change-of-address (COA) are not updated, based on the error rate found in USPS sampling at acceptance during Performance-Based Verification. Specifically, mailings for which the sample contains greater than 30 percent failed COAs out of the total COAs in the sample are subject to additional postage charges as follows:

- a. The percentage of the mailing paying the charge is based on the percentage of failed pieces above 30 percent.
- b. Each of the assessed pieces is subject to the \$0.07 per piece charge.
- c. As an example, if 40% of COAs in the sample are not updated, then the charge is applied to 10% (=40% - 30%) of the total mailing.

- d. Mailings for which the sample has five or fewer pieces that were not updated for a COA are not subject to the assessment, regardless of the failure percentage.

## 4.0 Price Eligibility for Standard Mail

### 4.1 General Information

All Standard Mail prices are presorted prices (including all nonprofit prices). These prices apply to mailings meeting the basic standards in 2.0 through 4.0 and the corresponding standards for Presorted prices under 3.0 and 5.0, Enhanced Carrier Route prices under 6.0, automation prices under 7.0, or Customized MarketMail prices under 705.1.0. Except for Customized MarketMail pieces, destination entry discount prices are available under 346.2.0 through 346.5.0. Nonprofit prices may be used only by organizations authorized by the USPS. Not all processing categories qualify for every price. Pieces are subject to either a single minimum per piece price or a combined piece/pound price, depending on the weight of the individual pieces in the mailing.

### 4.2 Minimum Per Piece Prices

The minimum per piece prices (the minimum postage that must be paid for each piece) apply as follows:

- a. Basic Requirement. Pieces mailed at Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route prices are subject to minimum per piece prices when they weigh no more than 3.3 ounces (0.2063 pound).
- b. In applying the minimum per piece prices, if the piece meets both the definition of a letter in 201.1.1.1 and the definition of an automation flat in 301.3.0, the piece may be prepared and entered at an automation flat price. Pieces mailed as Customized MarketMail (CMM) under 705.1.0 must pay CMM prices.
- c. Individual prices. There are separate minimum per piece prices for each subclass (Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route) and within each subclass for the type of mailing and the level of presort within each mailing. Except for Customized MarketMail pieces, discounted per piece prices also may be claimed for destination entry mailings (destination network distribution center (DNDC), destination sectional center facility (DSCF), and destination delivery unit (DDU)) under 346. DDU prices are available only for mail entered at Enhanced Carrier Route or Nonprofit Enhanced Carrier Route prices. See 1.0 for individual per piece prices.

### 4.3 Piece/Pound Prices

Pieces that exceed 3.3 ounces (0.2063 pound) are subject to a two-part piece/pound price that includes a fixed charge per piece and a variable pound charge based on weight. Pieces exceeding 3.3 ounces may not be mailed as Customized MarketMail. There are separate per piece prices for each subclass (Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route) and within each subclass for the type of mailing and the level of presort within each mailing. There are separate per pound prices for each subclass (Regular, Enhanced Carrier Route, Nonprofit, and Nonprofit Enhanced Carrier Route). Discounted per

pond prices also may be claimed for destination entry mailings (destination network distribution center (DNDC), destination sectional center facility (DSCF), and destination delivery unit (DDU)) under [346](#).

#### 4.4 **Shape, Flexibility, and Uniform Thickness**

Flat-size pieces that do not meet the standards in [301.1.3](#) through [301.1.4](#) must be prepared as parcels and pay parcel prices.

### 5.0 Additional Eligibility Standards for Nonautomation Standard Mail Flats

#### 5.1 **Basic Standards**

[\[1-26-14\]](#) All pieces in a Regular Standard Mail or Nonprofit Standard Mail Presorted price mailing must:

- a. Meet the basic standards for Standard Mail in [2.0](#) through [4.0](#).
- b. Except as provided in [3.6](#), be part of a single mailing of at least 200 addressed pieces or 50 pounds of pieces qualifying for Presorted Standard Mail. Regular and Nonprofit mailings must meet separate minimum volumes.
- c. Bear a delivery address that includes the correct ZIP Code or ZIP+4 code and that meets these address quality standards:
  1. The ZIP Code accuracy standard in [3.8](#).
  2. If an alternative addressing format is used, the additional standards in [602.3.0](#).
- d. Be marked, sorted and documented as specified in [345](#) or [705.14.0](#).

#### 5.2 **Price Application**

Presorted prices for Regular and Nonprofit Standard Mail apply to flats that meet the eligibility standards in [2.0](#) through [4.0](#) and the preparation standards in [705](#).

#### 5.3 **5-Digit Prices for Flats**

[\[1-26-14\]](#) The 5-digit price applies to flat-size pieces:

- a. In a 5-digit/scheme bundle of 10 or more pieces, or 15 or more pieces, as applicable; properly placed in a 5-digit/scheme sack containing at least 125 pieces or 15 pounds of pieces; or 10 or more 5-digit pieces properly included in a FSS 5-digit scheme pool prepared under [705.14.0](#).
- b. When palletized under [705.8.0](#) and [705.10.0](#) through [705.13.0](#), in a 5-digit/scheme bundle of 10 or more pieces, or 15 or more pieces, as applicable.
- c. In a 5-digit bundle of 10 or more pieces, or 15 or more pieces, as applicable; properly placed in a merged 5-digit/scheme or 5-digit sack under [705.10.0](#).

#### 5.4 **3-Digit Prices for Flats**

[\[1-26-14\]](#) The 3-digit price applies to flat-size pieces:

- a. In a 5-digit/scheme bundle of 10 or more pieces, or 15 or more pieces, as applicable, or in a 3-digit/scheme bundle of 10 or more pieces; properly placed in a 3-digit sack of at least 125 pieces or 15 pounds of pieces.
- b. When palletized under [705.8.0](#) and [705.10.0](#) through [705.13.0](#), in a 3-digit/scheme bundle of 10 or more pieces.
- c. That are residual pieces not qualifying for carrier route or 5-digit prices, but properly included in a FSS 5-digit scheme pool prepared under [705.14.0](#).

### 5.5 ADC Prices for Flats

ADC prices apply to flat-size pieces:

- a. In a 5-digit/scheme, 3-digit/scheme, or ADC bundle of 10 or more pieces properly placed in an ADC sack of at least 125 pieces or 15 pounds of pieces.
- b. In an optional 3-digit/scheme origin/entry sack.
- c. When palletized under [705.8.0](#) and [705.10.0](#) through [705.13.0](#), in an ADC bundle of 10 or more pieces; properly placed on an ADC pallet.

### 5.6 Mixed ADC Prices for Flats

[\[3-3-14\]](#) Except for pieces properly prepared in FSS scheme bundles under 5.4c, mixed ADC prices apply to flat-size pieces in bundles that do not qualify for 5-digit, 3-digit, or ADC prices; placed in mixed ADC sacks or on ASF, NDC, or mixed NDC pallets under [705.8.0](#).

## 6.0 Additional Eligibility Standards for Enhanced Carrier Route Standard Mail Flats

### 6.1 General Enhanced Carrier Route Standards

#### 6.1.1 Optional Preparation

Preparation to qualify for any Enhanced Carrier Route price is optional and need not be performed for all carrier routes in a 5-digit area. An Enhanced Carrier Route mailing may include pieces at basic, high density, high density plus, and saturation Enhanced Carrier Route prices.

#### 6.1.2 Basic Eligibility Standards

[\[1-26-14\]](#) All pieces in an Enhanced Carrier Route or Nonprofit Enhanced Carrier Route Standard Mail mailing must:

- a. Meet the basic standards for Standard Mail in [2.0](#) through [4.0](#).
- b. Be part of a single mailing of at least 200 pieces or 50 pounds of pieces of Enhanced Carrier Route Standard Mail. Regular and Nonprofit mailings must meet separate minimum volumes.
- c. Be sorted to carrier routes, marked, and documented under [345.6.0](#) or [705.8.0](#); or prepared under [705.14.0](#).
- d. Bear a delivery address that includes the correct ZIP Code, ZIP+4 code, or numeric equivalent to the delivery point routing code and that meets these address quality standards:

343.6.1.3

1. The carrier route accuracy standard in [6.2](#).
2. If an alternative addressing format is used, the additional standards in [602.3.0](#).
3. If flat-size pieces are prepared with detached address labels, the additional standards in [602.4.0](#).
- e. Meet the applicable sequencing requirements in [6.3](#) through [6.5](#) and in [345.6.9](#), and [345.6.10](#).
- f. Meet the applicable documentation and postage payment standards in [344](#), and [1.5](#).
- g. Enhanced Carrier Route price mail may not be more than 12 inches high, 15 inches long, or 3/4-inch thick. *Exception:* Merchandise samples with detached address labels (DALs) may exceed these dimensions if the labels meet the standards in [602.4.0](#).

### 6.1.3 Full-Service Intelligent Mail Eligibility Standards

In addition to other requirements in 6.0, flats eligible for the full-service Intelligent Mail option must:

- a. Be flat-size under [301.1.0](#).
- b. Be part of a basic carrier route, high density, or high density plus carrier route mailing under [6.3](#) or [6.4](#).
- c. Bear an accurate Intelligent Mail barcode encoded with the correct delivery point routing code matching the delivery address and meeting the standards in [302.4.0](#), and [708.4.0](#). Flats with Intelligent Mail barcodes entered under the full-service automation option also must be part of mailings that meet the standards in [705.23.0](#).

### 6.2 Carrier Route Accuracy Standard

Addresses used on pieces claiming any Enhanced Carrier Route prices must meet the carrier route accuracy standard in [602.7.0](#).

### 6.3 Basic Price Enhanced Carrier Route Standards

#### 6.3.1 Sequencing

**[1-26-14]** All pieces mailed at basic prices must be prepared in walk sequence or in line-of-travel (LOT) sequence according to LOT schemes prescribed by the USPS (see [345.6.9](#) and [345.6.10](#)), except when prepared in FSS bundles under [705.14.0](#).

#### 6.3.2 Basic Price Eligibility

**[1-26-14]** Basic prices apply to each piece in a carrier route bundle of 10 or more pieces that is:

- a. Palletized under [705.8.0](#), [705.10.0](#), [705.12.0](#), or [705.13.0](#).
- b. Placed in a carrier route sack containing at least 125 pieces or 15 pounds of pieces.
- c. Placed in a merged 5-digit scheme, 5-digit scheme carrier routes, merged 5-digit, or 5-digit carrier routes sack.

- d. Entered at a destination delivery unit as unsacked bundles, according to preparation standards in [345.2.0](#) and entry standards in [346.5.0](#).
- e. Properly prepared to a FSS 5-digit scheme pool prepared under [705.14.0](#).

## 6.4 High Density and High Density Plus (Enhanced Carrier Route) Standards

### 6.4.1 Basic Eligibility Standards for High Density and High Density Plus Prices

[1-26-14] All pieces mailed at high density prices must:

- a. Be prepared in walk sequence according to schemes prescribed by the USPS (see [345.6.9](#)), except when prepared in FSS bundles under [705.14.0](#).
- b. Meet the density requirement of at least 125 pieces for each carrier route. For high density plus prices, the density requirement is at least 300 pieces for each carrier route. Multiple pieces per delivery address can count toward the density standards, except for pieces with simplified addresses as allowed under [602.3.0](#).

### 6.4.2 High Density and High Density Plus Prices for Flats

[1-26-14] High density or high density plus prices apply to each piece meeting the density standards in [6.4.1](#) and that is properly prepared in an FSS bundle under [705.14.0](#) or in a carrier route bundle of 10 or more pieces that is:

- a. Palletized under [705.8.0](#), [705.10.0](#), [705.12.0](#), or [705.13.0](#).
- b. Placed in a merged 5-digit scheme, 5-digit scheme carrier routes, merged 5-digit, or 5-digit carrier routes sack.
- c. Placed in a carrier route sack containing at least 125 pieces or 15 pounds of pieces for high density prices.
- d. Placed in a carrier route sack containing at least 300 pieces for high density plus prices.

## 6.5 Saturation Enhanced Carrier Route Standards

### 6.5.1 Basic Eligibility Standards for Saturation Prices

All pieces mailed at saturation prices must:

- a. Be prepared in walk sequence according to schemes prescribed by the USPS (see [345.6.9](#)).
- b. Meet the density requirement of at least 90% or more of the active residential addresses or 75% or more of the total number of active possible delivery addresses on each carrier route receiving this mail. Pieces bearing a simplified address must meet the coverage standards in [602.3.0](#). Multiple pieces per delivery address do not count toward this density standard.

### 6.5.2 Saturation Prices for Flats

[3-3-14] There are two different sets of saturation prices for Standard Mail flats; one for pieces with specific addresses and another for pieces with simplified (EDDM) addresses. Saturation prices apply to each piece in a carrier route bundle of 10 or more pieces that is:

- a. Palletized under [705.8.0](#), [705.10.0](#), [705.12.0](#), or [705.13.0](#).

343.7.1

- b. Placed in a carrier route sack containing at least 125 pieces or 15 pounds of pieces.
- c. Placed in a merged 5-digit scheme, 5-digit scheme carrier routes, merged 5-digit, or 5-digit carrier routes sack.

## 7.0 Additional Eligibility Standards for Automation Standard Mail Flats

### 7.1 Basic Eligibility Standards for Automation Standard Mail

[1-26-14] All pieces in a Regular Standard Mail or Nonprofit Standard Mail automation mailing must:

- a. Meet the basic standards for Standard Mail in [2.0](#) through [4.0](#).
- b. Be part of a single mailing of at least 200 pieces or 50 pounds of pieces of automation price Standard Mail (Regular and Nonprofit mailings must meet separate minimum volumes).
- c. Be in the same processing category and meet the physical standards in [301.3.0](#).
- d. Bear a delivery address that includes the correct ZIP Code, ZIP+4 code, or numeric equivalent to the delivery point routing code and that meets these address quality standards:
  - 1. The address matching and coding standards in [7.4](#), and [708.3.0](#).
  - 2. If an alternative addressing format is used, the additional standards in [602.3.0](#).
- e. Bear an accurate Intelligent Mail barcode encoded with the correct delivery point routing code, matching the delivery address and meeting the standards in [302.5.0](#) and [708.4.0](#).
- f. Be marked, sorted and documented under [345.7.0](#) and [705.8.0](#) through [705.13.0](#); or prepared under [705.14.0](#).
- g. Meet the applicable documentation and postage payment standards in [344](#).

### 7.2 Eligibility Standards for Full-Service Automation Standard Mail Flats

All pieces entered under the full-service Intelligent Mail automation option must:

- a. Bear a unique Intelligent Mail barcode.
- b. Be part of a mailing that meets the standards in [705.23.0](#).
- c. Be scheduled for an appointment through the Facility Access and Shipment Tracking (FAST) system when deposited as a DNDC or DSCF drop shipment.

### 7.3 Price Application

[1-26-14] Automation prices apply to each piece properly sorted into qualifying groups:

- a. The 5-digit price applies to flat-size pieces in a 5-digit/scheme bundle of 10 or more pieces, or 15 or more pieces, as applicable; or 10 or more 5-digit pieces properly prepared to a FSS 5-digit scheme pool under [705.14.0](#).
- b. The 3-digit price applies to flat-size pieces in a 3-digit/scheme bundle of 10 or more pieces. It also applies to residual pieces not qualifying for carrier route or 5-digit prices but included in a FSS 5-digit scheme pool under [705.14.0](#).
- c. The ADC price applies to flat-size pieces in an ADC bundle of 10 or more pieces.
- d. The mixed ADC price applies to flat-size pieces in mixed ADC bundles (no minimum).

## 7.4 Address Standards for Barcoded Pieces

### 7.4.1 Basic Address Standards for Barcodes

To qualify for automation prices, addresses must be sufficiently complete to enable matching to the current USPS ZIP+4 Product when used with current CASS-certified address matching software. Standardized address elements are not required. Any barcode that appears on a mailpiece claimed at an automation price must be the correct barcode for the corresponding delivery address on the piece.

### 7.4.2 Numeric ZIP+4

A numeric ZIP+4 code must consist of five digits, a hyphen, and four digits.

### 7.4.3 Numeric Delivery Point Routing Code

A numeric equivalent to the delivery point routing code is formed by adding two digits directly after the ZIP+4 code.

### 7.4.4 Address Elements

Addresses must include the correct street number, predirectional, street name, suffix, and postdirectional that are input to obtain a match with the current USPS ZIP+4 Product.

### 7.4.5 Firm Name

An address must include a firm name when necessary to obtain a match with the finest level of ZIP+4 code in the USPS ZIP+4 Product. If an address contains a firm name assigned a unique ZIP+4 code in the USPS ZIP+4 Product, the unique ZIP+4 code must be used. If the firm name is not one assigned a unique ZIP+4 code in the USPS ZIP+4 Product and the apartment/suite number is included in the address, the ZIP+4 code for the range in which the apartment/suite number appears must be used in that address. If the firm name does not correspond to a firm name that has a unique ZIP+4 code assigned in the USPS ZIP+4 Product and the apartment/suite number is not included in the address, the ZIP+4 code for the building must be used.

### 7.4.6 Secondary Designator

If a secondary address designator (e.g., an apartment number) is shown in the address, the mailpiece must show the appropriate ZIP+4 code representing the range for that secondary address as contained in the current USPS ZIP+4 Product. If a secondary address designator is required to obtain an exact match with the

343.7.4.7

finest level of ZIP+4 code in the USPS ZIP+4 Product but the information is not available, the alternative ZIP+4 code or ZIP+4 or delivery point barcode for the building must be used.

### **7.4.7 Rural and Highway Contract Routes**

If a rural route or highway contract route box number is included in the address, the mailpiece must show the appropriate ZIP+4 code representing the range for that box number as contained in the current USPS ZIP+4 Product. If a rural route or highway contract route box number is required to obtain a match with the finest level of ZIP+4 code but is not available, the alternative ZIP+4 code or ZIP+4 or delivery point barcode for the rural route or highway contract route must be used. If used, the rural route or highway contract route box number must be placed on the line immediately above the city/state/ZIP Code line.

### **7.4.8 Post Office Box**

A Post Office box address must contain a Post Office box number that can be exactly matched with the USPS ZIP+4 Product in effect.
