1.5 **Presort Mailing Fee**

A First-Class Mail presort mailing fee must be paid once each 12-month period at each office of mailing by any person or organization entering mailings at automation or Presorted First-Class Mail prices. Payment of this fee does not apply to qualified full-service mailings (under [705.23.3.1a.](#)). Payment of one fee allows a mailer to enter mail at all those prices. Persons or organizations paying this fee may enter mail of their clients as well as their own mail. The fee may be paid in advance only for the next 12 months and only during the last 60 days of the current service period. The fee charged is that which is in effect on the date of payment.

1.6 **Computing Postage for First-Class Mail**

Determine single-piece weight and weight (postage) increment for each addressed piece as prescribed in [1.7](#) and [1.2](#). For First-Class Mail, affix postage to each piece under [234.2.2](#), or, for permit imprint mailings, multiply the number of addressed pieces at each price increment (and in each price category, if applicable) by the corresponding postage price, add the *unrounded* products, and round off the total postage to the nearest whole cent.

1.7 **Determining Single-Piece Weight**

To determine single-piece weight in any mailing of nonidentical-weight pieces, weigh each piece individually. To determine single-piece weight in a mailing of identical-weight pieces, weigh a sample group of at least 10 randomly selected pieces and divide the total sample weight by the number of pieces in the sample. Express all single-piece weights in decimal pounds rounded off to four decimal places.

2.0 **Content Standards for First-Class Mail**

With the exception of restricted material as described in [601.8.0](#), any mailable item may be mailed as First-Class Mail.

In addition, bills include a demand for payment; statements of account do not include a demand for payment. The debt does not have to be due immediately but may become due at a later time or on demand. The debt asserted need not be legally collectible or owed.
- b. Bills and statements of account do not need to state the precise amount due if they contain information that would enable the debtor to determine that amount.

When a flat-size mailpiece weighing no more than 2 ounces in round-trip mailings includes one standard optical disc no larger than 12 centimeters in diameter, the mailpiece will be subject to the applicable price for a 1-ounce First-Class Mail letter if the disc is not in a rigid container and the envelope itself is not rigid and all other standards in [2.7](#) are met. To qualify for automation prices, addresses must be sufficiently complete to enable matching to the current USPS ZIP+4 Product when used with current CASS-certified address matching software. Standardized address elements are not required. Any barcode that appears on a mailpiece claimed at an automation price must be the correct barcode for the corresponding delivery address on the piece.

5.7.2 Numeric ZIP+4

A numeric ZIP+4 code must consist of five digits, a hyphen, and four digits.

5.7.3 Numeric Delivery Point Barcode (DPBC)

The numeric equivalent to the delivery point routing code is formed by adding two digits directly after the ZIP+4 code.

5.7.4 Address Elements

Addresses must include the correct street number, predirectional, street name, suffix, and postdirectional that are input to obtain a match with the current USPS ZIP+4 Product.

5.7.5 Firm Name

An address must include a firm name when necessary to obtain a match with the finest level of ZIP+4 in the USPS ZIP+4 Product. If an address contains a firm name assigned a unique ZIP+4 code in the USPS ZIP+4 Product, the unique ZIP+4 must be used. If the firm name is not one assigned a unique ZIP+4 in the USPS ZIP+4 Product and the apartment/suite number is included in the address, the ZIP+4 for the range in which the apartment/suite number appears must be used in that address. If the firm name does not correspond to a firm name that has a unique ZIP+4 assigned in the USPS ZIP+4 Product and the apartment/suite number is not included in the address, the ZIP+4 for the building must be used.

5.7.6 Secondary Designator

If a secondary address designator (e.g., an apartment number) is shown in the address, the mailpiece must show the appropriate ZIP+4 representing the range for that secondary address as contained in the current USPS ZIP+4 Product. If a secondary address designator is required to obtain an exact match with the finest level of ZIP+4 in the USPS ZIP+4 Product but the information is not available, the alternative ZIP+4 code or ZIP+4 or delivery point barcode for the building must be used.

5.7.7 Rural and Highway Contract Routes

If a rural route or highway contract route box number is included in the address, the mailpiece must show the appropriate ZIP+4 representing the range for that box number as contained in the current USPS ZIP+4 Product. If a rural route or highway contract route box number is required to obtain a match with the finest level of ZIP+4 but is not available, the alternative ZIP+4 or ZIP+4 or delivery point barcode for the rural route or highway contract route must be used. If used, the rural route or highway contract route box number must be placed on the line immediately above the city/state/ZIP Code line.

5.7.8 P.O. Box

A Post Office box address must contain a Post Office box number that can be exactly matched with the USPS ZIP+4 Product in effect.

6.0 Eligibility Standards for Card Price First-Class Mail

6.1 Card Price

A card may be a single or double (reply) stamped card or a single or double postcard. Stamped cards are available from USPS with postage imprinted on them. 6.2 Cards and Letters

Pieces claimed at First-Class Mail card prices and pieces claimed at First-Class Mail letter prices are each subject to a separate minimum volume criteria whether prepared as separate or combined mailings. Either way, card-size and letter-size pieces may be presented at the same time and reported on the same postage statement.
